

Company Policy and Security Guide

1. Password Policy

Passwords must contain at least 12 characters and should include a mixture of uppercase letters, lowercase letters, numbers, and symbols. Passwords must not be shared with another person.

2. Account Lockout

An account is locked after 5 consecutive failed authentication attempts. The employee must follow the approved account-recovery process to regain access.

3. Expense Approval

Expenses up to INR 10,000 may be approved by the employee's manager. Expenses above INR 10,000 require manager and department-head approval.

4. Data Classification

Confidential company information must be accessed only by authorized employees. Sensitive information must not be copied to personal storage or sent to personal email.

5. Incident Reporting

Security incidents should be reported to the security operations team as soon as they are identified. The report should include the time, affected system, and a short description.
